The **MX7600FFL** is designed with the customer in mind along with maximum flexibility. The **MX7600FFL** offers front or rear safe enclosure access, giving you ideal installation choices. It also has options for deposit processing technologies, allowing your institution to custom tailor solutions to cardholder preferences.

KEY FEATURES

USABILITY

The **MX7600FFL** has the most deployment and feature/function options in a robust secure platform. The **MX7600FFL** is designed for easy serviceability and quick deployments, enabled by platform flexibility. Users will appreciate the clean, compact interface and the highly secure and reliable platform.

HIGHEST AVAILABILITY

The **MX7600FFL** is a market leader in cash dispensing technology beginning with its high capacity modular design. The **MX7600FFL** is the ideal self-service platform for full function interior lobby deployments.

FUNCTIONALITY

The **MX7600FFL** supports a full range of personalization, advertising, and marketing options as well as end-to-end deposit automation implementation.

The attention grabbing 15.1" color TFT supports these functions. As with all Hyosung platforms, the modules are designed, engineered and manufactured to provide a highly functional and reliable self-service technology with a migration path to match an institution's vision.

SECURITY OPTIONS

The **MX7600FFL's** UL 291 Level 1 safe has been proven in the field, time and time again. Additional standard features like the EPP PIN shield and over the shoulder assurance mirrors maximize customer privacy and enhance safety. Optional security cameras for both surveillance and cash withdrawal areas allow you to protect both your customers and your cash assets at the ATM.

MX7600FFL
