CASH HANDLING TO CASH INTELLIGENCE

01 | FORECAST DEMAND

Use transaction patterns to better plan denominations, inventory, and replenishment.

02 | ALERT EARLIER

Monitor device health, cash levels, and exceptions before disruptions escalate.

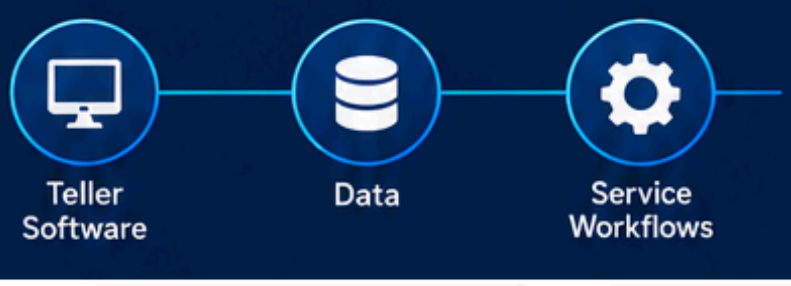

03 | PREDICT & RESPOND

AI-assisted diagnostics and informed dispatch help reduce downtime and repeat visits.

04 | SEE RISK SOONER

Flag unusual activity and reconciliation patterns for faster review.

INTEGRATION MAKES THE DIFFERENCE

Connect recyclers, teller software, data, and service workflows to unlock the value.
